I hope all our mothers had a wonderful **Mother's Day** filled with love and happiness. Your Board of Directors presented an "over the top" dinner the evening before. It was a huge hit with an outstanding menu, followed by dancing and just plain fun. People stayed in the dining room and danced until the very end!! Thanks to all our Board members for their hard work – way to go, team! And we all had a blast! Linda Weisfuss and Vera Cline provided beautiful decorations, and the table-setters came out in full force, creating a fun ambiance in our dining room for CIYC Moms.

As of this writing, the **Variety Show** rehearsals are in full swing, and I know the results will be fantastic. Thanks so much to Barbara Brauns, Jack Borkowski, Larry Stein, and our CIYC band for their countless hours of work.

Our bar sales continue to do well. Thanks to all for attending our special events. We are working on ideas for some of our slower times, such as Thursday nights and Sundays. Our wonderful bartenders are doing a fabulous job with drink specials and great service. We are pleased to welcome our newest addition, Lisa Petrucela, who comes to us from the Elks Club. She is a very experienced bartender and has mastered our POS system very quickly. Along with Kami and Jess, our crew is fantastic. Don't forget to add those gratuities to the tip jars, or, if you close out your club account nightly, remember to add that special service fee. We need to show our appreciation and keep our gals happy!!

As summer approaches, we are pleased to offer another great month of activities. The horses will be racing again at our **TGIF FISH-FRY on June 7th**. After that, the first **DINGHY DINE** will take place around **June 9th**. Sherie and Rick Ireland have graciously offered their beautiful home for this fun-filled event. You don't want to miss out on this afternoon. Food, music, and, of course, a bit of alcohol all contribute to make this a special afternoon.

Our most heartwarming event this month is the **Disabled Veterans Sail Day on Sunday, June 23rd**. Bill Brayton is chief-in-charge and needs volunteers to take our vets out for a cruise that day. Please contact Bill at bbrayton@atra.com if you can help. Lana Lynch is in charge of volunteers for all other jobs (and there are many). Please contact Lana at lanalynch5180@gmail.com if you can help. There will also be a sign-up sheet in the bar book.

See you all at the club!

WOW! Can you believe it's June already! Our year is flying by and I am proud of what we have accomplished so far. We have upheld many long-standing traditions and tried some new things. We have a lot of the year left to go and many more goals to achieve.

In **May, Wednesday dinners** provided a variety of experiences. We started off with a dinner catered by **Ciao Italian Grill**. The food got great reviews but attendance was weak. I will try that again in the future. The rest of the month provided a variety of good experiences. **Elyse Gonnello** offered Sausage, peppers with pasta. **Diane Sabol** served Chicken Potpies and **Lisa Medlen** will be providing a family style Italian dinner. The month was anything but a "same old, same old". As you will see, we have another interesting and varied line up for June. I am now seeking Wednesday cooks for July and August. Please let me know which week you would like to host.

Barbara Brauns and Joyce Sheridan (with a lot of help from Jack Borkowski and others) provided a great venue for watching the real **Kentucky Derby** and wagering on our own jockeys. Our **Mother's Day** event was moved from the traditional Sunday Brunch to a Saturday evening dinner prepared by your Board of Directors. This sold-out event was a huge success and the Board again proved they are a cohesive team and great cooks (if I do say so myself). **Memorial Day supper club** will again be prepared by Staff Commodore and Chef Jerry Woods who will cap off your holiday weekend with a BBQ supper.

On **May 18**, Karen and I hosted a **Coastal Wine Dinner**. A sell-out crowd of 60 was treated with a carefully paired selection of wines and the narration of David Brodowsky of Epic Wines and Spirits along with the excellent 5 course meal prepared by Chef Ray Swanson of Chef 805 Catering. The event was a huge success. We heard comments like "over the top", "we should do this every quarter" and "best event ever at CIYC". My thanks go out to the table setters, servers and others who contributed to pulling off this event. I'm sure we will want to repeat a similar wine celebration in the future.

June will be a quieter month in terms of club dinner events. The **Beefeaters** will revive their acclaimed "**Long Island Diner's London Broil**" offering on **June 22** (note: this is a calendar change). The Channel Islanders will host their traditional **Father's Day dinner** on June 15. This is always a sold-out event so please sign up early. The remainder of the month will be consumed by featured events such as the Variety Show (May 31 – June 1), Men's Fishing tournament (June 8) and DAV (June 23).

Have a great June and I look forward to seeing all yawl at CIYC!

Mike Farrell, Vice Commodore

I AM VERY HAPPY TO LET THE MEMBERSHIP KNOW THE BOATING SEASON IS HERE AND SO MUCH IS HAPPENING!

We had our first E-boat event, thanks to Gail and Frank Laza. It was a lot of fun with many boats participating in E-boat bingo and ending at the club. The bar was packed, and the E-boats were full, when we all returned for the awards. This was a blast. We will have two more E-boat events this year.

We had our first CRUISE TO THE ISLANDS, and I hope everyone had fun. Thanks, Garry Kraft, for heading this up. We also had an interesting cruiser meeting on anchoring. CIYC boaters take pride in helping each other.

Wet Wednesday races are underway with an awesome fleet of boats this year representing CIYC. While the sun is setting, the sails are up. This is breathtaking to see!

On June 9th, we will have our first DINGHY PARTY at the home of Rick and Sherie Ireland. Joyce Sheridan and Jack Borkowski will be chairing this event. This will be a lot of fun, so DON'T MISS THIS ONE! Good food - good music - many fun surprises.

On June 23rd, we have our Disabled Veterans Sail Day; this is a huge event. We host over 100 veterans. Putting them on boats, GIVING BACK. I AM SO PROUD OF OUR CLUB: WHAT WE CAN DO WHEN WE ALL COME TOGETHER. There are many different volunteer opportunities. Please participate for our wonderful vets! On June 29th, we host the Wild Bill Rig Race. This will be a big one, and we're very much looking forward to it.

Don't forget our big 4th of July E-boat parade! It's time to plan how you are going to dress your boat. Frank Laza is chairing this event as well.

A MESSAGE FROM THE FLEET CAPTAIN, JANE THOMAS

BIG NEWS FOR CIYC & CIWSA SAILORS!! CIYC and CIWSA have formed a partnership for the shared responsibility, expense, and use of 2 Laser sailboats. Members of both clubs will have access to them! They are located on the inside dock between A & B docks in Channel Islands Harbor Marina, just south of Channel Islands Yacht Club. We're working out a shared-use system like Fairwind YC uses, ie, new Laser users complete an on-the-water check-out, after which they can sign up to reserve a Laser, then go to a combination key box outside CIYC, pick up the gear and dock key, and go sailing!

CIWSA has planned "Laser Picnics," June 8th, 11:00AM-3:00PM, at Peninsula Park, Channel Islands Harbor, where we can practice rigging the Lasers, take turns sailing them from the dock, and nibble on a pot-luck picnic in between. Coaches and a chase boat will be available. Please RSVP with Fleet Captain, Jane Thomas

BOATING SEASON IS OPEN - SEE YOU ON THE WATER

ENJOY! Linda Weisfuss, Rear Commodore 2019

Hello, Channel Islanders and All CIYC members!

The outing to **Santa Barbara Polo and Racquet Club** scheduled for **May 19th** had **to be postponed to July 14 due to rain**. It will be extra special this time, with over 40 people expected to attend. Thanks to Linda Perry for organizing this special event.

It will soon be time to celebrate **Father's Day**. Evelina and George Arglen will head up the **Islanders' Dinner for Dads** on **Saturday, June 15th**, at 7pm. We'll also have a DJ for dancing. (See the flyer here in the Currents.) This will be a sellout event, so reserve early! Sign up at the bar, on Clubrunner, or email me at: hoku524@yahoo.com. We will be serving Elegant Salad with Blue Cheese dressing, Sirloin Steak with Mushrooms and Béarnaise Sauce, Grilled Zucchini with dill, Baked Potato with all the trimmings, and Apple Pie a la Mode for dessert! All the fathers will be given a ticket for our **'variety of wines' Raffle**. All this for \$25!

Our **Islanders' Regular Meeting** will be on **Wednesday, June 19th**, from 5:00-5:45 pm. This will be a very important meeting for all Islanders because we will be forming a Nominating Committee for next year's Board. Please consider being on this committee. We'll have light snacks, and you may bring your drink in from the bar.

I know many Islanders will enthusiastically volunteer for our upcoming **Variety Shows, May 31st - June 2nd**, as well as for the **Disabled Veterans Sail Day on June 23rd**. These are some of the events that help make our club so special.

Upcoming excursions: first, the **Ojai Lavender Festival on Saturday, June 29th**. If enough people show interest, we can secure a bus (See flyer here in Currents). Summer and Fall excursions being planned: the **Chumash Casino** and **Lotusland in Santa Barbara**. Fun, Fun! Fun!

Laurie Preston
Islanders 1st Mate 2019

Anglers' Corner - June 2019

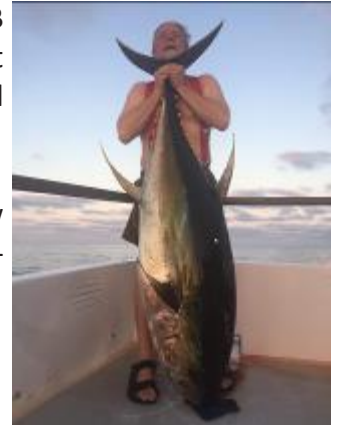

By Frank Sullivan

Fishing Report:

White Sea Bass are here! There are some squid spawning at Santa Cruz and Santa Rosa Islands, so White sea bass and halibut are available to those willing to make the effort. However, many of the WSB are being caught in or near the kelp beds using artificial lures that mimic the abundant Red Crabs that are around the Islands. Remember WSB limits are one fish per day until June 15th when the limit goes up to 3 fish per day.

Max Hovaten caught a 180 lb. Yellow Fin Tuna and Gary Johnson caught a 114 lb Yellow Fin Tuna while fishing with Bob Nast on the Apollo chartered out of Nuevo Vallarta Mexico, the caught several large Grouper as well.

WSB pen update:

On May 15th I took WSB pen volunteers Tom Webb, Derick Hawthorne and Mark Kadowaki to the Ocean Resources Enhancement Hatchery for a Pen Operators meeting and a tour of the facility. Neither Tom nor Derick have ever been there. The tour was an eye opener for them, seeing to complexity and scope of the program. In the meeting we were presented with an outline of a 5-year plan to further the WSB program and add in the raising of Halibut. We cannot complete the plan until we know what the budget will be from the state going forward. The past few years we have received several budget reductions while the state continued to grow the reserve funds for the program. These funds come from the Ocean Resources Enhancement Stamp that fishermen purchase with their license if they are fishing in ocean waters south of Point Conception. These funds can only be used for the Hatchery program, so we have a problem understanding why they are being held back when the program is struggling to fulfill its goals due to lack of funds. The state is holding the budget review as this is being written, if you know a state assemblyman or state senator please let them know that we need to have some of those funds released.

Good Luck and weigh in those fish!!!

Upcoming events:

June 8 th	Men's Fishing Tournament
July 27 th	Ladies' Fishing Tournament
August 3 rd	Coastal Conservation Assn. Fundraiser
September 6 th	Channel Islands Bill Fish Tourney Kickoff Dinner
September 7 th to 11 th	Channel Islands Bill Fish Tournament
September 13 th	Channel Islands Bill Fish Tourney Awards Dinner
November 9 th	Anglers' Awards Scampi Dinner

Doc Lines

Influenza: 2017/2018

Some 80,000 Americans died from the H3N2 flu last year. This is more than three or four times as many compared to an average year. This was also the largest number since the pandemic of Spanish flu in 1918/19 when it is estimated that 500,000 Americans perished. This year the flu is less severe and the vaccine is much better. The peak of flu season is expected in January and February. Wash your hands often and don't touch your face, eyes, and nose. Please try not to hug and smooch too much! Get vaccinated.

Being Unfit

"Being unfit should be considered as strong a risk factor as hypertension, diabetes, and smoking—if not stronger than all of them." This is in a study from the Cleveland Clinic published in JAMA. "It should be treated as a disease that has a prescription, which is called exercise." What did I tell you? Start some form of exercise and get in shape. But talk to your doctor first and start slowly.

Second Opinions

This is from the Mayo Clinic. A new study finds that 88% of people who go for a second opinion after seeing a doctor are likely to leave with a refined or new diagnosis compared with what they were first told by their primary physician. Therefore, the second opinion specialist only confirmed the original diagnosis 12% of the time. Considering how health insurance companies often limit the ability of patients to visit multiple specialists, this figure is troubling.

Motion Sickness

Now this may be of interest to our club members who get seasick. The Naval Aerospace Medical Research Laboratory found that more than half of soldiers riding in Army vehicles suffer from motion sickness. Roughly 25% of sailors get sick in "moderate seas," and 70% in "rough seas." And 50% of personnel, including paratroopers, get airsick. To combat motion sickness, troops typically take a drug called scopolamine which has side-effects.

A young inventor came up with an interesting solution. A headband attaches a small device behind one ear. The device emits subtle vibrations which target two nerve fibers that carry the data from the inner ear to the brain. The working hypothesis is that the vibration causes a chaotic and non-informative stimulus to go to the brain. Although it is not exactly clear how it works, it does prevent motion sickness without affecting balance, vision, alertness, or anything else. Not sure yet when it will appear on the market.

Your Fleet Surgeon, Zoran

Thanks to Erika for editing.

The Challenges of Coastal Activism

Beaches and harbors are for all to enjoy, not just for the lucky few who can live there. But there are many challenges to coastal activism and environmental justice. The Harbor & Beach Community Alliance was one of only three organizations invited to speak on the challenges of volunteer activism and environmental justice by the California Coastal Commission at their May Meeting in Oxnard. The following is a summary and excerpts from those speeches.

The common challenge (to volunteer activism) is the goliath-like adversaries: a developer, a corporation or a government entity. They have access to what seems like boundless amounts of money, powerful influence, and an arsenal of experts, legal counsel, and staff. For many activists, it sometimes feels like fending off the white walkers from the Game of Thrones or the Empire from Star Wars. New and inexperienced activists are often surprised by what they encounter and what they must learn to do.

The 5 Challenges:

First, public participation through petitions, letter writing and speech making alone is not effective. It is important to have access to coastal environmental expertise and legal guidance. This requires money. For most activists, this means learning how to fundraise to pay for these fees. Other expenses may need to be individually funded. This is not easy to do. Most activists find this overwhelming.

Second, Local Coastal Plans (LCPs) and Public Works Plans (PWP) need to be updated on a timely basis but are not legally required to do so. For example, over the last 2 decades, there have been 4 different organizations of activists that have been involved at Channel Islands Harbor. Each has asked that the County to update the harbor's Public Works Plan. There were promises it was in the works, one even made to the Coastal Commission, but nothing to date. It is unfair for the public to be subjected to an on-going barrage of piece-by-piece amendments. It wears the public down. It prevents the public, and even the Coastal Commission, from understanding the intent of those changes.

Continued next page

Third, there is what can only be described as “sovereign like powers” that a local government can exercise at its whim. These can be used to discourage and dissipate public efforts. For example, after facing fierce opposition that delayed the proposed project [Fisherman’s Wharf’s apartment complex], the County extended the developer’s Exclusive Right to Negotiate (ERN) for the harbor land at issue and they did so at no cost to the developer. This “sovereign like” action prevents proposals from other developers for another 1-2 years. It dashed hope for project modifications that would better serve public access and Environmental Justice concerns. It was a kick in the gut and the community had to bolster their resolve to stay on the issue.

Fourth, project information is essential to understand what the project is and its impact on public access. But not all critical information is readily available to the average person.

The developer and County can choose to provide partial information or withhold key information. Even making formal Public Requests for Information does not always get the information. There can be claims the information does not exist. There can be claims the information is legally exempt. Sometimes there is no response. To get complete information, the only recourse then is legal action the public cannot afford to do.

Fifth, developers can use promotional renderings of projects that do not accurately show what the project really is. They use these illustrations to “sell” the project to the public. The public may have access to project specifications (like height, length, features, amenities, etc.) But it is still impossible for the average person to visualize the project and so they rely on the developer’s illustrations. This is not right and not fair.

Good decisions on development projects can only be made when there is a true understanding of the project. Developers should be required to provide an accurate model that shows what the project really is. Developers should show how their project furthers environmental justice and how it is designed to promote coastal access for all. Developers should be proactive in this endeavor and not always wait until the public raises the issue.

This is because decisions on every new coastal development will be decisions that will stand on the coast for more than a hundred years and affect public access for generations.

Rene Aiu, Harbor Delegate
