## Message From The Commodore Vidar Bech

This is the 30<sup>th</sup> article I am writing for the Currents and I am wondering: Does anyone read this? Well I hope so...it is a pain sometimes to be creative. Sorry, don't mean to complain; especially when I see what effort many of our members make to keep the club functioning. It does rub off and you feel proud of being part of what we all accomplish.

Talking about accomplishment, I have to thank the Board of Directors for all the help making the Mothers Day Luncheon such a success and a special “**thanks**” to **Nancy** and **Shelly Berger** for taking charge of the menu and making it all happen.

Another great happening in May was a delicious Lobster dinner by **Gary Johnson** and **Don Dickey** on behalf of the Anglers. The Ladies' Fishing tournament will be Sunday June 5<sup>th</sup> with the Men's tournament to follow On Saturday June 11<sup>th</sup>.

I hope everyone had a great time at the Hawaiian Luau put on by the Epicureans headed by **Joyce Sheridan**. Thanks to the Epicureans and the Beefeaters we can always look forward to some great dinners.

One of our Annual Big Events is coming up on June 26<sup>th</sup>: The **Disabled Veterans Sail Day** put on by **Bill Brayton** and **Cindy Arosteguy**. Please support this huge undertaking by Bill and Cindy.

Thanks to **Bob Taylor** and **Frank Laza**, we are getting some new activities in our club. For those of you that own an Electric boat have fun and participate in these events. The Cocktail Run was a great success and on July 4<sup>th</sup> we will have our first annual E-Boat Parade.

By now the Bocce Ball is in full swing and that keeps **Shelly** and **Dan Ward** busy.

We really welcome the New Members that are joining and getting involved with various activities that make our self-help club such a success.

As a closing note, I want you all to come and enjoy yourself at our Club. Keep up the camaraderie and the good spirit and be tolerant of each other. We're all here to have a good time.

Till next time.

Vidar  
Commodore

Message From  
The Vice-Commodore  
Sheldon Berger

**Hello All,**

May has been a busy month at CIYC. Thanks to the Board of Directors for their help on preparing a great Mother's Day lunch. We had a great turn-out and all enjoyed the meal. A special thanks to my favorite mother and loving wife, Nancy Berger, for the great menu and recipes and giving up her Special Day to work in the kitchen and help with the meal. Everyone had a great time.

Our Wednesday night meals continue to increase, thanks to the Hatchers, Dave Gable, Bill Scarpino and Diane Sabol. A guest speaker presented by Bill was Dr. Rocco Calderone, an orthopedic surgeon with St. John's Hospital. Dr. Calderone is part of the Staying Shipshape series in conjunction with St. John's Hospital. Thanks, Bill, for taking the lead on this speaker series. Very informative.

The TGIF committee, under Joyce Sheridan and Clark Owens, got us "racing" to the finish. This is always a fun night with great prizes and excitement from our fillies.

A new security motion light was installed over the gate at the rear patio entrance. This should help our members after dark with their exit from the club.

May 24<sup>th</sup> Zoran & Erika Barbaric arranged for our 4<sup>th</sup> Classical Guitar Recital. As always a great program and standing room only to enjoy this great presentation.

Gary Johnson and his crew prepared the annual Lobster Fest on behalf of the Anglers. It was a sell out, and money was raised to help with the white sea bass pens and other endeavors of their group. Thanks to all who participated.

**I NEED YOUR HELP!** As part of my responsibilities as Vice Commodore, in charge of the club house, I want to improve and upgrade the entrance lobby to our building: new paint, floors, lighting fixtures, and a new front door with our logo. I am looking for volunteers to help me with the work, design and help with fund raising to pay for the work. Please contact me if you would like to be part of this project and committee. I promise once we get going and complete the work, all will be pleased with the look of the lobby.

It's hard to believe that this year is almost half over. Summer is upon us and we will have lots of fun things planned for the second half of 2016.

**See you at the Club! Sheldon Berger, Vice Commodore 2016**

Message From  
The Rear-Commodore  
Penny Lipp

**REAR COMMODORE REPORT**

**PENNY LIPP**

On April 22-24, the Newport to Ensenada race was held. CIYC had two entries in this race. Many thanks to Cindy Arosteguy for the following:

Congratulations are in order for our two sailboats that proudly represented CIYC in the 125-mile Newport to Ensenada International Yacht Race on April 22. Bill Brayton's ***Maverick*** placed second in their PHRF Class and Harry Krum's ***Fus'ee*** placed fourth in his PHRF Class. It was a wild and fast ride for both ***Maverick*** and ***Fus'ee*** crews which consisted of CIYC members Cindy Arosteguy and Janie Brockman on ***Maverick*** and CIYC Past Commodore Larry Golkin and members Jon Lawson and Dave and Sandra Lochridge on ***Fus'ee***. Bill Brayton will be bringing to our Club (for bragging rights) the first place perpetual trophy for the fastest Catalina uncorrected time for this race.

On May 15, Director Bob Taylor and Marylou Taylor hosted the first Electric Boat Cocktail Run which was attended by over 60 people. We had seven boats, plus two inflatable dinghies participate for this fun event. Thanks to Bob and Marylou for coming up with this great idea. We hope to see more of these events in the future.

June 26, 2016, is the Disabled Veterans Sail Day at CIYC!

On June 18, 2016, CIYC will hold the Wild Bill Platform/Port Royal random leg race. This is our High Points race. We need all the racers we can get on the water for this one!

Be sure to plan to participate or view the Fourth of July Electric Boat Parade sponsored by CIYC and directed by Frank Laza.

Wishing you fair winds and following seas.

Penny Lipp,  
Rear Commodore

## Message From First Mate Karen Farrell

### Hello Channel Islanders and CIYC Members!

This year is going so fast! Maybe because we have been so busy with all of CIYC's GREAT activities and events. The CIYC board put on a very nice Mother's Day lunch and we mother's thank them for the great food and fantastic service.

The Islander By-Laws/Standing Rules committee has been meeting to review and revise these documents. You will be seeing a copy by email after the Islander Board reviews and approves the changes. We have an Islander Regular Meeting on the calendar for June 23 @ 6 p.m. Please put this date on your calendar and plan to attend, so we can have a quorum to vote on the By-Laws/Standing Rules revisions. We will order pizzas and have salad and a dessert.

Also, of GREAT importance, coming up in June is the Islanders Father's Day Dinner on June 18<sup>th</sup>! This will be a fantastic, not to be missed, event!! We have a great menu planned, only the finest for our Fathers. See flyer in this newsletter.

### **Barbara Brauns will be entertaining us again this year: "The Ladies of Stage & Screen Salute the Fathers of CIYC"**

Please sign up early, as I expect this will be a sell-out for about 70.

Enjoy the rest of Spring, as Summer is just around the corner. Hope to see you all at the many upcoming club events!

**Karen Farrell**

**1<sup>st</sup> Mate 2016**

Mothers Day Luncheon - May 8<sup>th</sup>  
Seated is Yvonne Farris' mother, Mrs. Ruby Gallegos, who is 95 years old, with Weldon.  
Standing is Vera Cline and her Mother, Penny Wolcott, who is 100 years old.

# Anglers' Corner - May 2016

*By Frank Sullivan*

## **WSB grow-out pen update:**

We have received approximately 18,000 Juvenile White Sea Bass in our Grow-out pens. All seem to be doing excellent. The Annual Anglers' Lobster Dinner and fund raiser were a resounding success with over 90 in attendance. The CIYC Anglers' Club and friends cooked a great Lobster dinner.

We had a big raffle and Don Dickey came up with the idea to have folks sponsor the new net anchors at \$20 apiece for 24 anchors. All of them were sponsored! Thank you all for your generosity. We will be able to do a lot more maintenance on the pens and make some great improvements.

## **Big Fish of the month:**

So far, Joyce Johnson has the Big Fish of the Month, a 47lbs. Halibut .

The signup sheets for the Ladies' and Men's Fishing Tournaments will be posted this month. Good Luck!

## **Upcoming events:**

June 5 <sup>th</sup>	Ladies' Fishing Tournament
June 11 <sup>th</sup>	Men's Fishing Tournament (this is a changed date)
September 9 <sup>th</sup>	Channel Islands Bill Fish Tourney Kick-off Dinner
September 10 <sup>th</sup> to 14 <sup>th</sup>	Channel Islands Bill Fish Tournament
September 16 <sup>th</sup>	Channel Islands Bill Fish Tourney Awards Dinner
November 19 <sup>th</sup>	Anglers' Awards Scampi Dinner

## DO YOU KNOW?

### Bud and Phyllis Gerding

By Keith & Mary Ann Moore

Bud grew up in Santa Paula and enjoyed playing almost all High School sports. He loved snow skiing. Phyllis grew up in Burbank and attended Burbank High School. She was an excellent water skier and loved riding her dirt bike in the desert.

In 1944 while still a junior in High school, Bud enlisted with the US Maritime Service to support WWII. He trained to be a sailor on Catalina Island, and sailed aboard the merchant marine ship US Weir Cook to the South Pacific, Philippines and Japan. At the end of WWII (1945), the US Navy gave the ship to the Japanese and brought the ship's crew back to the US.

Bud returned to finish high school and Ventura College. With the start of the Korean War, Bud was with the US Army's 40<sup>th</sup> Infantry Division located at Camp Cook, California. The Army then released Bud to the US Navy, where he learned to fly at Pensacola, Florida. Bud qualified as a naval carrier pilot on the USS Cabot, August 27, 1952, in the Gulf of Mexico.

After his military service, Bud attended the National School for Electronics and the Don Martin School of Radio. His first job was at Bing Crosby Enterprises and later at Lockheed's Missiles & Space Division in Burbank California, providing missile launch support at Cape Canaveral, FL and Vandenberg, CA. Bud met Phyllis in the Microfilm Operations department. They were married on November 13, 1972.

Bud became a Senior Systems Engineer / Program Manager for several super secret programs in Lockheed's famed Skunk Works. For more than 22 years, he was on the US Air Force's "SR-71" Blackbird program, traveling around the world to support the aircraft's missions. He says "this was a very exciting time and it was a Great Job; really made the heart beat faster...but because of the incredible secrecy, you couldn't talk about it!"

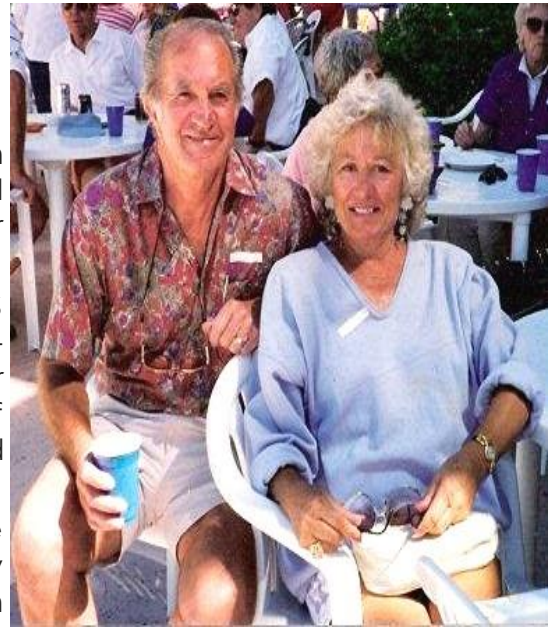

As you may recall, during late 50's the Blackbird was the fastest (30 miles per minute) and highest (80,000+) aircraft to ever fly, and safely returned surveillance photos from any place in the world. Over 4000 missiles were fired at it..... and it was never touched!

Bud and Phyllis lived in Silverstrand, Mandalay Bay and Hueneme Bay and enjoyed a second home in Palm Springs. While at Lockheed, Bud commuted from Oxnard to Burbank every day flying his private plane ..... marveling at the stop-and-go traffic on the freeways below. They have traveled most of the US and Canada in their RV motor home. Bud was also a California Real estate agent for 58 years.

Bud and Phyllis joined CIYC in 1980 and still enjoy the Club's great socializing, food, drink, golfing and Casino Parties and often travel in Club events.

So when you see Bud and Phyllis at the Club, please say hello and perhaps reminisce with a very interesting couple.

.....And stay tuned for next months, "DO YOU KNOW".

## Doc Lines

### Why Do We Sleep?

Sleep has restorative effects: These include brain development, memory processing, immune function, and a 15% decreased metabolic rate. All noble things, but they don't explain why all animals die within a few weeks of sleep deprivation.

This brings us to the lymphatic circulatory system. Its primary function is to drain protein molecules, and other metabolites, from spaces between the cells (interstitial spaces). Unable to enter blood capillaries, these molecules enter the small lymph vessels, which coalesce into one bigger vessel and drain into a large vein just behind the left collarbone. If left behind, the proteins attract water and cause swelling (edema). The liver is the biggest contributor to lymph flow, because it's a protein factory. About 2-3 liters of lymph drains into the venous system during every 24-hour period. Forward flow is by muscular contraction, respiratory pressures, some smooth muscle contractions in the larger lymph vessels, and unidirectional valves. The secondary function is to "filter" and kill bacteria via the lymph nodes, and to transport fat from the bowel to the liver.

Compared with other organs, the brain has a ten times greater metabolic function, and thus a corresponding amount of proteins and metabolic stuff dumped between the cells. And yet it has no lymphatic system! So how does the bad stuff get out of there, you ask?

What happens is that cerebrospinal fluid (CSF) diffuses in between the cells and flushes it out. It does so by entering spaces around small penetrating arteries along the periphery, and exiting in small spaces around the veins on the other side. These are called perivascular spaces and recently have been named the *glymphatic system*. This is a flush-out type of cleansing, driven also by the brain pulsating with arterial pressure.

A major recent discovery at the University of Rochester, NY, is that the *glymphatic system* undergoes dramatic dilatation and enlargement during sleep. And the interstitial spaces also significantly enlarge. Enlargement of all these spaces makes CSF flushing so much more efficient in getting rid of metabolites. These then enter the venous system and are expelled via the kidneys or reprocessed by the liver.

So, that's it in a nutshell. We need sleep to open up the draining system and flush the brain clean - just as tides flush the harbor. During waking hours this flushing system is not functional. It's too busy thinking. The things that adversely affect this function are trauma, stroke, and, unfortunately, aging. That's why it's important to get a good night's sleep, and even a short nap during the day. Every teenager will tell you that, but now you know why.

Your Fleet Surgeon, ZZZZZoran

Thanks to Erika for editing.

## **Pirating of Public Land for Private Profit: More Apartments, More Traffic - Is This Our Vision for our Beautiful Harbor?**

Channel Islands Harbor is an exceptionally beautiful harbor that we enjoy and love. Now its prized public owned waterside lands are to be developed for the enjoyment of a privileged few and the profit of a single developer.

On May 3<sup>rd</sup>, many issues were buried within ERNs (Exclusive Right to Negotiate), granted by the Board of Supervisors (BOS) and the Harbor Department (HD) to the Channel Islands Properties LLC (CIHP). The ERNs in question had expired over a year ago after CIHP did nothing and failed to fulfill their requirements within deadlines. Even after many in the community voiced their concerns, the BOS voted to reward CIHP's failure by extending their ERNs for one year.

In doing so, the BOS jeopardized the recently approved (March 22<sup>nd</sup>) Brighton Management (BM) hotel project replacing the Casa Sirena. This ERN for F and F-1 parcels gives CIHP the right to force Brighton Management back into negotiations for sections of these parcels originally included in BM's approved plan with height variances for the hotel, public parking and promenades. Per the Harbor Director, BM's Plan is already at the Coastal Commission for review and approval to start construction.

Another expired ERN was for the X-3 parcel designated in the PWP for a Community Center. Now CIHP has a 1-year ERN for this prime parcel located between the Vintage Marina Office and the Duffy Boats Office without having to declare what they intend to do with this prime property.

CIHP is the same developer proposing a "mixed use development" of 390 apartments with over 600 resident parking spaces at the Fisherman's Wharf area with a 65-year lease. With almost 2,000 new housing units coming into the area, is this the best use of our prime public land?

Wouldn't the Fisherman's Wharf area be an incredible harbor park with picnic tables, promenades with harbor vistas and benches, visitor-serving businesses, a Chumash exhibit, a marine learning center, a children's museum, restaurants, and lots of parking, bike racks and a public docking area?

This prominent public land is a natural portal to the harbor and can potentially be its most promotable landmark. Our harbor is one of the most beautiful harbors on the West Coast and the gateway to the magnificent islands and ocean national park described as the "Galapagos of California". Shouldn't it be developed as the beacon to our Channel Islands National Park?

At the May 3<sup>rd</sup> meeting, it was also learned that the CIHP's managing partner is now Geoff Palmer, a developer with a history peppered with negative articles like these:

- LA files \$20 million lawsuit against Da Vinci Apartments developer (a Geoff Palmer development) claiming its negligence was responsible for the damage caused by a massive fire that forced closure of 110 freeway and \$80 million in damages to a nearby city building – February 18, 2016 LA Times

- Downtown LA's mixed-users are full of empty storefronts that on paper make sense but without retail tenants actually moving in, it all falls apart. It's Geoff Palmer vicious circle, the retail spaces in his enormous "fauxtalian fortresses" are rarely occupied – February 17, 2015 Curbed News
- Builder given 5-year penalty for demolishing the last 19<sup>th</sup> century home on Bunker Hill without a permit. David Keim, the chief code enforcement officer at the City's Department of Building and Safety, said he believed it was the first time his agency had invoked this ordinance to halt construction – August 29, 2003 LA Times
- G.H. Palmer Associates to pay fines for laundering of campaign funds after the state's Fair Political Practices Commission found the company had committed 15 violations of the California Political Reform Act – August 29, 2003 LA Times
- Geoff Palmer among Beverly Hills top water wasters, his household used more than 12,000 gallons of water a day during a two-month period, and facing a penalty. Palmer appealed in January. March 14, 2016 LA Times

Is this a developer who should be given exclusive access to our prized public harbor land?

**On June 7, 2016, the Board of Supervisors meet at the Ventura County Administration Building to decide if the 11.4 acres of public land, known as the Fisherman's Wharf area, should be turned over to CIHP for 390 exclusive luxury apartments development.**

The BOS must require a thoroughly vetted INDEPENDENT EIR (Environmental Impact Report) and a PROPER TRAFFIC STUDY for a proposal that may impact wildlife, increase traffic and endanger lives should an emergency exit be required out of the Silver Strand area and other sections of the harbor community.

### **Update on the Channel Islands Boating Center (CIBC)**

On May 17<sup>th</sup>, the Harbor Department is seeking Board of Supervisors' approval to execute the first Operating Agreement for the CIBC between the County of Ventura and the Trustees of the California State University, through the CSUCI. Incredibly, since the CIBC opened 3 years ago, there has only been a lease agreement in effect.

Access to the facility by the harbor community, yacht clubs and general public appears to remain limited at best; is not consistent with what had been originally promised, and not a real concern of either the Harbor Department nor the CSUCI.

Celine Zacarias, the Director of Community & Government Relations at the California State University, will be our guest speaker at our Wednesday night dinner on June 8<sup>th</sup>. Please come and hear what is happening at the Channel Islands Boating Center.
